Bureau of Justice Assistance (BJA)/National Governors' Association (NGA)
Justice Information Technology Integration Implementation Project

MICHIGAN

Award To: Michigan Department of State Police

Amount: \$750,000*

PURPOSE:

The Michigan Department of State Police will use the funds to implement a portal that will be used to develop and maintain statewide databases that support the needs of local and state users. It will also allow for greater Web-based transmission and retrieval of information to support law enforcement management. In addition, funds will be used for research for the point of presence lines, which would facilitate integration and information sharing with state and local criminal justice agencies. The portal technology and the point of presence lines will help ensure that Michigan can further develop the information technology infrastructure in the state.
