

CMPD Video Link

One of the primary successes of the project was creating and completing the development of a short video that summarizes the technologies and activities of the RTCC in Charlotte, North Carolina. The video can be viewed at <https://www.youtube.com/watch?v=nQz7YCzM0LA>. It should help other agencies to easily understand what a RTCC is, how it operates, what kinds of technologies can be integrated, and how this process works in Charlotte.
