Initially in *Short Takes* March 7, 2003. The U.S. Department of Justice (DOJ) is amending its regulations to authorize the attorney general to waive normally required training requirements in the event that the number of state or local law enforcement officers available to respond in an expeditious manner to urgent and quickly developing events during a declared mass influx of aliens is insufficient to protect public safety, public health, or national security (*Federal Register*, Feb. 26, 2003, pp. 8820-8822, <http://a257.g.akamaitech.net/7/257/2422/14mar20010800/edocket.access.gpo.gov/2003/03-4441.htm>). The interim rule is effective Feb. 26. Written comments, referencing INS No. 2241-02, must be submitted on or before **April 28** to the Regulations and Forms Services Division, Immigration and Naturalization Service, 425 I Street, NW, Room 4034, Washington, DC 20536. ### **USPC Proposed Rule on Conditions for Release**

The U.S. Parole Commission (USPC) is proposing to revise three rules that describe the conditions of release for federal and District of Columbia offenders on parole supervision, and District of Columbia offenders serving terms of supervised release (*Federal Register*, April 7, 2003, pp. 16743-16746, <http://a257.g.akamaitech.net/7/257/2422/14mar20010800/edocket.access.gpo.gov/2003/03-7849.htm>). The proposed revision consolidates similar provisions for the three groups of offenders and makes the conditions easier to read and understand. There are some minor changes in the directions given to the releasees. Finally, the commission proposes to generally apply a condition presently required for some DC supervised releasees convicted of domestic violence offenses to all persons under supervision who were convicted of domestic violence offenses.

Comments must be received by **May 7**. Send comments to Office of General Counsel, U.S. Parole Commission, 5550 Friendship Blvd., Chevy Chase, Maryland 20815.

### **IJIS Institute Offering TA for Integrated Justice Information Systems**

The Integrated Justice Information Systems (IJIS) Institute, a membership organization representing businesses providing products and services to the justice community, has received a grant from the U.S. Department of Justice to provide technical assistance (TA) to jurisdictions that are planning to implement or are in the process of implementing integrated justice information systems. The Institute offers state, tribal, territorial, and local justice agencies an opportunity to seek neutral, cost-effective, state-of-the-art assistance from the companies at the leading edge of IJIS design and development. This balanced perspective can help jurisdictions avoid common pitfalls, evaluate the applicability of new technologies, and sort through conflicting claims and alternatives. Staff from the IJIS Institute member organizations will provide three to five days of consulting services to help agencies solve technology issues related to implementing integrated justice information systems.

In addition to the technical assistance, the IJIS Institute is conducting a series of technology seminars on a variety of technology issues facing justice agencies attempting to implement integrated justice information systems. The seminars cover critical topics, such as XML, multi-jurisdictional data mining, and information security. The IJIS Institute also offers an accredited, one-week IJIS Project Management course.

Justice agencies interested in obtaining technical assistance or enrolling in one of the training programs should visit the IJIS Institute web site at <http://www.ijisinstitute.org> or call the IJIS Institute at 202-628-8615.

Funds may be used to develop program literature, train advocates, produce a newsletter, support victim outreach efforts, and recruit volunteers. It is an open solicitation and is contingent upon the availability of funds. The grant funds must be expended within a 12-month period. Application information is available online at <http://www.ojp.usdoj.gov/ovc/fund/hopeappkit/welcome.html>. If you have questions or need help completing your application, please contact Celestine Williams, 202-616-3565, [celeste@ojp.usdoj.gov](mailto:celeste@ojp.usdoj.gov).

Initially in *Short Takes* Dec. 6, 2002. The National Center for Missing & Exploited Children (NCMEC), in conjunction with OJP's Office of Juvenile Justice and Delinquency Prevention (OJJDP), will provide computer hardware, software, and support services for the LOCATER™ (Lost Child Alert Technology Resource) Program at no charge to law enforcement agencies whose responsibilities include missing and abducted child investigations. ### **Cost Waiver for Municipalities Launching IntelliCast Target Notification for Missing Children**

Initially in *Short Takes* Dec. 6, 2002. The National Center for Missing and Exploited Children (NCMEC) and Intrado have unveiled a program where municipalities can use IntelliCast Target Notification to assist with missing child searches. Using IntelliCast Target Notification, officials can deliver a message about a missing child to thousands of targeted homes and businesses within minutes, helping ensure the most efficient dissemination of relevant information to safely and quickly recover missing children. The service is available to both municipalities with or without existing AMBER plans (urgent bulletins to communities over the Emergency Broadcast System calling for assistance in the search for a missing child). In view of the budgetary constraints facing local communities across the country, NCMEC has worked with Intrado to waive costs associated with municipalities launching IntelliCast Target Notification events to recover missing children. For communities that are not yet subscribers to the IntelliCast Target Notification service, Intrado, in conjunction with the NCMEC, will eliminate the upfront set-up costs to facilitate the implementation process. For information on how to take advantage of this offer, go online to <http://www.intrado.com/main/offering/intellicast/publicsafety/amberplus/> or call 877-262-3775.

The U.S. Interagency Council on the Homeless (ICH) is coordinating a \$35 million joint initiative with the Departments of Housing and Urban Development (HUD), Health and Human Services (HHS), and Veterans Affairs (VA) to support the administration's initiative to end chronic homelessness (*Federal Register*, Jan. 27, 2003, pp. 4017-4046, <http://a257.g.akamaitech.net/7/257/2422/14mar20010800/edocket.access.gpo.gov/2003/03-1801.htm> and corrected at <http://a257.g.akamaitech.net/7/257/2422/14mar20010800/edocket.access.gpo.gov/2003/03-4341.htm>). The initiative seeks to create a collaborative and comprehensive approach to addressing the problems of homelessness. The collaboration among the departments offers housing and service funding through a consolidated application. Applicants must show how the funds they are requesting will be part of a comprehensive and integrated community strategy to use funding sources, including mainstream services resources, to assist persons who are chronically homeless and homeless families with a disabled adult member to move from the streets and emergency shelters into stable housing and receive the range of services and other support needed to promote and maintain greater self-sufficiency. Funds will be awarded by HUD, two agencies within HHS, and VA based on one consolidated application. The application requests a description of the comprehensive approach being taken by each applicant, and includes four agency-specific application sections tied to the four federal funding streams. Applications must address both the overall approach and specific technical requirements established by the participating agencies. Funding provided by HUD must be used to provide permanent housing; HHS's SAMHSA funds will be directed toward substance abuse treatment, mental health, and related supportive services; and HHS's Health Resources and Services Administration funds will be used for primary health care services. Applicants will be able to obtain additional resources from local VA facilities by addressing the specific needs of chronically homeless veterans in their application. The deadline for receipt of applications is **April 14**. The application kit is available online at <http://www.ich.gov/library/2003nofa/index.html>, <http://www.hud.gov/offices/cpd/homeless/apply/index.cfm>, <http://www.hrsa.gov/grants/homeless.htm>, <http://www.samhsa.gov/grants/grants.html>, <http://www.va.gov/homeless/page.cfm?pg=20>. NIC invites applications for a cooperative agreement to design and deliver a three-day team development training program. Participants will be selected graduates of the two prior Executive Leadership Training for Women programs and the participant's chosen senior administrator. This third program offering continues the leadership development of the

woman executive by inviting other key personnel into the process to work together as a highly productive and respectful team. This particular team approach should incorporate researched and documented leadership styles of both men and women. The award recipient must become familiar with Phase 1 and Phase 2 of the NIC Executive Leadership Training for Women Program in order to understand the program history and progression to this advanced level of training, designed for selected graduates of the Phase 1 and 2 program. The cooperative agreement includes the responsibility for the program and curriculum design, training of faculty, and the delivery and evaluation of the pilot program in FY 2004. The award amount will be limited to a maximum of \$175,000. \$100,00 will be paid in FY2003 and \$75,000 in FY2004. Applications must be received by **April 15**. ## **Weed and Seed Continuation Grants**

Initially in *Short Takes* March 21, 2003. OJP's Executive Office for Weed and Seed is inviting online applications for FY 2003 continuation funding to Weed and Seed sites. Operation Weed and Seed is an innovative and comprehensive multi-agency approach to law enforcement, crime prevention, and community revitalization. The strategy involves a two-pronged approach: law enforcement agencies and prosecutors cooperate in "weeding out" violent crime and drug abuse; and "seeding" brings human services to the area, encompassing prevention, intervention, treatment, and neighborhood revitalization. At each site, the United States Attorney plays a central role in organizing the Steering Committee and bringing together communities with other Weed and Seed participants.

Online registration at <http://www.ojp.usdoj.gov/fundopps.htm> for Group A must be completed by **April 16** and for Group B by **April 30**. Online applications for Group A are due **Aug. 22** and for Group B **Sept. 5**. Application information is available online at <http://www.ojp.usdoj.gov/eows/funding.htm>. ## **OVW Grants to Reduce Violent Crimes Against Women on Campus**

Initially in *Short Takes* Feb. 7, 2003. OJP's Office on Violence Against Women (OVW) is soliciting applications for FY 2003 Grants to Reduce Violent Crimes Against Women on Campus. The primary purpose of the program is to develop and strengthen victim services in cases involving violent crimes against women on campuses and strengthen effective security and investigation strategies to combat violent crimes against women on campuses. In FY 2003, OVW intends to fund a two-year special initiative to develop and implement innovative programs utilizing the organizational strengths of associations whose membership consists of institutions of higher education. Up to four initiatives will be funded to develop effective practices for responding to and preventing violence against women on campus using the membership of the associations to develop, implement, and disseminate promising models. Special initiative applicants are also eligible to apply for direct funding, for its campus, under the campus program as a new or continuation grantee. Special initiative applicants, however, should not propose duplicative projects and should prepare separate and distinct proposals. Eligible grantees are institutions of higher education as defined under the Higher Education Amendments of 1998. A consortium of higher education institutions also may apply for these grants provided that each individual consortium member is eligible to apply. Applicants issued awards in FY 2002 are not eligible to apply. Current grantees are eligible for supplemental or continuation funding to support on-going activities or to enhance those activities for an extended period of time. Continuation or supplemental funding is not guaranteed. Due to limited funding, it is unlikely that OVW will make awards in excess of \$200,000 for individual new projects or \$400,000 for new consortia projects. Continuation budgets should not greatly exceed prior budget amounts. It is unlikely that OVW will make continuation awards in excess of \$300,000. Applicants seeking funding under the new special initiative can apply for up to \$1 million. Online application deadline has been extended to **April 17**. Application information is available online at <http://www.ojp.usdoj.gov/vawo/applicationkits.htm> and <http://www.ojp.usdoj.gov/fundopps.htm>. For additional information, please contact OVW at 202-307-6026.

### **OJJDP FY 2003 State Challenge Activities Grants Program**

Initially in *Short Takes* March 21, 2003. OJJDP is soliciting applications for the FY 2003 State Challenge Activities Grants Program. The \$10 million appropriated in FY 2003 for the program is allocated as follows: \$1.2 million statutory set aside to support State Challenge Activities Grants Program-related research and training and technical assistance and a total of about \$8.8 million is available for distribution to states. The Amber Plan Program is a voluntary program where law enforcement agencies partner with broadcasters to issue an urgent bulletin in the most serious child abduction cases. The U.S. DOT Amber Plan Grant Program will provide up to \$7 million in grants to states (including Puerto Rico and the District of Columbia) to fund the application of Intelligent Transportation Systems (ITS) to facilitate the inclusion of state and local transportation agencies into existing or proposed Amber Plan Programs. The intent is to provide funds to states for the purpose of planning the systems and procedures necessary to incorporate various traveler information systems such as changeable message signs (CMS) in the issuance of Amber Alerts. Each state (including Puerto Rico and the District of Columbia) may apply for a grant of \$125,000 for planning, coordinating and designing of systems, protocols, and message sets that support the coordination and communication necessary to issue an Amber Alert and to provide the means to communicate an Amber Alert to motorists. This funding would ensure that the notification is well designed and integrated between the law enforcement and transportation communities. Once such planning has been completed, any remaining funds from the grant could be used to support the implementation of systems that will support the dissemination of Amber Alert messages via CMS or other traveler information systems. There is a statutorily required minimum 20% matching share that must be from non-federally derived funding sources. Applications must be received prior to **Aug. 1**; decisions regarding the acceptance of specific applications for funding will be made within 60 business days of receipt.
