### About CICC/GIWG

#### CICC/GIWG Mission Statement

The CICC and GIWG are charged with advising and providing recommendations to the U.S. Attorney General on issues relating to advancing the use of technology, standards, and collaboration between agencies/organizations in the area of criminal intelligence. The CICC and GIWG serve as advocates for local law enforcement in their efforts to develop and share criminal intelligence for the promotion of public safety and the security of our nation. The Global Initiative, the intelligence community, and the larger justice landscape in which the CICC and GIWG serve and operate are dynamic entities and environments. This mission will likely evolve as efforts continue toward implementation of the *Information Sharing Environment Implementation Plan* and the Guideline Reports, per the Intelligence Reform and Terrorism Prevention Act of 2004, as well as the *National Strategy for Information Sharing*. State, local, and tribal law enforcement agencies are expected to be affected by the impending changes and will need guidance and assistance.
